

Goat Terminology

Female goat: Doe

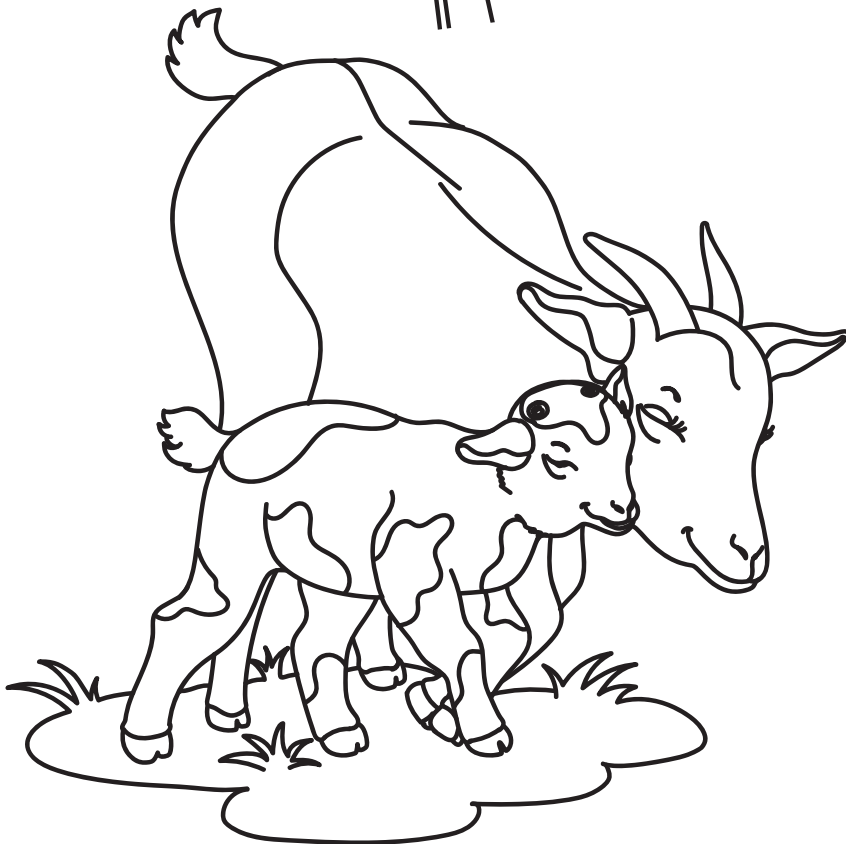

Male goat: Buck

Castrated male goat: Wether

Baby goat: Kid

Approximately 72%
of milk consumed
by humans worldwide
is goat milk.

Goats have rectangular
pupils. Rectangular
pupils give a goat
320°-340° degree vision.
Humans, however, have
only 160°-210° degree
vision.

What do you call a baby
goat that knows martial
arts?

A Karate Kid!
