OFFICE OF THE GOVERNOR

California Agriculture Fair Season

On behalf of the State of California, it is my pleasure to welcome you to the 2023 California Fair Season.

California fairs have a very important role in their communities. Every year, millions of people gather at fairgrounds throughout California to celebrate time-honored traditions that reflect the diversity of our state. Each fair takes great pride in showcasing their community through unique performances, events and exhibits.

Livestock and other competitive exhibits demonstrate integral parts of agriculture that provide a link between the public and California's farmers and ranchers. By displaying local crops, crafts and livestock, fairs educate the community about our state's agricultural sector.

Thank you for your participation and dedication to our state and the agricultural community.

Sincerely,

A handwritten signature in black ink, appearing to read "Gavin Newsom", written over a horizontal line.

The California State Fair July 14-30, 2023

The California State Fair has always been the awe-inspiring showcase of the state's finest, and ever since the first fair in 1854, California has upheld this tradition. People come from all over to witness the competition and innovation that our exhibitors produce. We continue to add new and exciting competitions to our competitive programs to showcase California's very best!

Why enter the Competition?

Competing at the California State Fair isn't just about sportsmanship and discipline. It is building a relationship between the consumer and the general public, education about the facts of agriculture and interacting with people who become lasting friends. It is an opportunity to showcase what you have learned through your organization and your livestock projects. It is the ability to see how your project measures up to some of the best on the west coast; to learn how to accept victory and defeat a professional and positive matter; to showcase that hard work and determination does pay off. Good luck to all exhibitors!

RULES & REQUIREMENTS

Ownership & Registration Papers

1. All entries must have been owned by the exhibitor for at least 30 consecutive days before the opening of the Fair. Animals that are leased by exhibitor are not eligible.
2. Animals entered as individuals in the Junior Department are eligible to be entered in classes of the Senior Department (when the animal is entered and shown in the Junior Show).
3. All animals in “breeding animal” divisions must be registered and recorded with the breed association in the exact name of the exhibitor (owner) as declared on the entry form, except:
 - a. For pigs under 12 months of age and still owned by the breeder, litter registrations are acceptable if recorded with the breed association and if they identify the litter by birth date, sire, dam, and ear notching.
 - b. Exhibitors whose breed association requires an inspector’s approval before registering may present a statement by the secretary of the association that the animal is otherwise eligible to be registered if the statement identifies the animal by birth date, sire, dam, and ear tag, tattoo or notching, and the animal will not be over 12 months of age on the opening day of the Fair.
 - c. Breeding partnerships or co-owned animals must be verified by names listed on original registration certificates provided by the breed association.
 - d. All junior show rules shall apply with regards to breeding partnerships.
4. Original Registration Certificates, including a Duplicate of an Original Registration Certificate **issued by a breed association**, or other documents mentioned above, Items a. through c., must be presented to the management when the animals arrive on the fairgrounds and must be available on request at any time. Photocopies or other duplicated copies of original documents, letters, telegrams, etc., **are not eligible**. Clerks are instructed to correct entry records exactly as shown on the certificate. All registration papers must be inspected and approved by the State’s representative before entries are allowed to be judged.

5. All sheep entered in the Natural Colored Wool Sheep Division, must be accompanied by a certificate of individual registry from the NCWGA or at any other breed association issuing these registrations on colored sheep. Natural Colored Wool Sheep must only be shown in the Natural Colored Wool Sheep Division; these sheep may not be shown in any other division.
6. No deviation from or alteration in the information on a registration certificate will be permitted unless clearance in writing is first obtained from the breed association and presented with the certificate. Evidence of any attempt to alter information on a registration certificate shall be reported immediately to the Division of Fairs and Expositions and the appropriate Breed Association(s) and shall result in the disqualification of that exhibitor.
7. When the owner and breeder names are not exactly the same on the registration certificate, a statement from the breed association verifying that the various names are recognized as the owner and/or breeder, including owner's mailing address, must be presented to the State Fair Livestock office before awards can be paid.
8. Animals may not be entered or shown in more than one breed division unless specific show rules allow for such. Animals entered and shown in Junior show may show in Open show if entered and have met all open division requirements. All animals must be shown in the breed division in which they are entered. Furthermore, an animal is eligible to enter and compete in only "one" breed classification regardless if the animal is registered in one or more breed associations or registries. The animal must also be registered in the recognized U.S. Registry for their breed classification or if registered in the country of origin outside the U.S., the animal must be eligible for registry in the recognized U.S. Registry.

Animal Identification

9. All animals (except market animals) shall be identified by a permanent number (ear tag, legible, easy-to-read tattoo, brand required by breed association, or ear notching) on the animal and recorded on the entry form. When identification numbers are in both ears, and the numbers are different, both numbers shall be recorded on the entry form. (Official California calf hood brucellosis vaccination ear tags, plastic orange, are acceptable; brucellosis vaccination tattoos are not.) All animals with ear notching or tattoo identification (i.e., tattoo, ear notch, tag, etc.) are required to be listed on the official breed association registration papers. The I.D. information on the animal must match that which is listed on the registration paper in order for that animal to show. Further requirements

may result from the USDA National I.D. Program. No tattooing on grounds.

10. An exhibitor may not use the same permanent marking on more than one animal of the same breed and sex during any 5 month period for swine, and two consecutive calendar years for sheep, or any 12 month period for all other livestock, except that all pigs in one litter may be marked the same.

Veterinarian

11. Livestock exhibitors will be responsible for all veterinary fees applied to their animals. The state may at its sole discretion require an autopsy of any animal that may die while on the fairgrounds. Autopsy fees will be the responsibility of the exhibitor.

For the purpose of this rule only, a husband, wife, and unmarried children (including foster children) under 18 years of age shall be considered as being one exhibitor, except half brothers and/or sisters shall be considered as being separate exhibitors in Junior Department classes. This rule shall have no bearing on consideration in the placing of entries by judges. Ribbons shall be presented in the order of placing by the judges. (Any entry or exhibit in which one or more members of the family described above has a financial interest shall be included in the limitation of not more than two cash awards per class.
15. Management reserves the right to combine or to divide classes in a manner it deems necessary in order to assure adequate competition. Inbreeding classes where age classes are combined or divided after

the closing date, Rule 14 above shall be applied on the basis of classes entered rather than classes shown. In the event of a show change, as a result of this rule, or where classes are established after the close of entries, premiums and awards will be distributed, divided or eliminated in a manner as deemed necessary by Fair Management.

16. The judge may disqualify any animal that is not sufficiently gentle to be shown with safety. The judge may not award premiums to any animals which show visible evidence of disease, deformity, or lameness. No award will be made to entries eliminated under this rule.
17. No children will be allowed to show or be present in the show ring with mature, breeding age boars.
18. Any animal upon which artificial means have been used to permanently remove or remedy physical defects will be barred from the exhibition. This does not apply to the train of horns.

It is the exhibitor's responsibility to clean tie-out area before departure from the California State Fair.
30. Please be advised; if you remove or rearrange a panel in your assigned pens, you will be required to return the panels to their original location

before a release slip is issued. Failure to do so will result in a \$50.00 back charge for each panel our staff has to re-install to its original configuration. Barn assignments will be used to back the bill, so make sure if you change locations in the barns that your show superintendent knows your final location.

31. Only animals entered in the 2023 California State Fair may be on grounds.
32. State Fair will “not” provide any bedding for exhibitors. The State will arrange for a feed vendor on the grounds that will make straw and shavings available for sale.
33. No manure allowed in garbage bins.
34. Open division cattle shall be stalled together as much as possible by breed (i.e., Angus with Angus etc.). Cattle having registration papers with more than one breed association/registry shall be stalled with the breed in which they enter. In cases where exhibitors may be showing two or more breeds, consideration will be given on a case-by-case basis.

CALIFORNIA STATE FAIR RESIDUE AVOIDANCE PROGRAM

In an effort to increase awareness of responsibilities associated with the production of consumer-oriented products, the California State Fair requires exhibitors of market animals to sign a Medication Declaration Form. It is also required that breeding animals on medication also declare such treatment on a Medication Declaration Form. If an animal requires medical treatment while on the fairgrounds, only a licensed veterinarian will be allowed to administer any drug, chemical or feed additive. An exhibitor may choose a licensed veterinarian other than the official State Fair veterinarian, but the official State Fair veterinarian **must** be notified in advance and he/she **must** be present. Furthermore, The Official State Fair Veterinarian, in agreement with Show Management, reserve the right to treat any animal if, in the opinion of the Official State Fair Veterinarian, it is in the best interest of the animal's health and well-being to be treated. All treatment costs are the responsibility of the exhibitor. All animals treated on the fairgrounds must submit a Medication Declaration Form. This form acknowledges the use of any substance in/on the animal for which the required withdrawal period has not completely elapsed before arrival at the Fair. This includes substances used per label or in an extra-label fashion. All extra-label drug usage **must** be done under the supervision of a licensed veterinarian and their contact information is required. Any animal requiring medically necessary treatment within 48 hours of competition may need to be withdrawn from competition if hydration status, mentation or gait will be affected by the necessary treatment. The intent of the program is not to prevent medically necessary treatment, but to ensure the animal's well being and, fair competition. The decision of the Fair's committee in regards to eligibility for competition shall be final.

The California State Fair is continuing its Residue Avoidance Program and reserves the right to test any animal officially entered in any division at any time without notice, for foreign substance including but not limited to drugs, chemicals or feed additives.

Compounds tested for may include but are "not" limited to:

- Antibiotics
- Local Anesthetics
- Non-Steroidal Anti-Inflammatory Drugs
- Diuretics
- Sedatives/Tranquilizers
- Steroids/Growth Promotants

Note to Parents/Legal Guardian, Leader/Supervisor

By signing the Detailed Receipt each parent/legal guardian acknowledges that:

1. He/she has read the California State Fair Junior Livestock Competition Guide Rules (General, Livestock, and Special) and Regulations;
2. The Junior Exhibitor has owned, fed and cared for the animal(s) throughout the required ownership period. He/she has supervised the Junior Exhibitor and the Junior Livestock animal(s) have not had any drugs, chemicals, feed additives, or other substances used on them except pursuant to the label specifications, or unless under the direction and supervision of a licensed veterinarian for therapeutic purposes. All drugs, chemicals, feed additives or other substances for which the required withdrawal period has not elapsed before arrival at the Fair must be declared on a Medication Declaration Form at official weigh-in;
3. He/she has supervised the Junior Exhibitor and the Junior Livestock animal(s) have not been tampered with in any way, including but not limited to, unethical fitting or any method altering the natural conformation of any part of the animal(s) body;
4. He/she understands the penalties for violating these General, Livestock and Special Rules and Regulations, include but are not limited to, monetary penalties, and the immediate disqualification of the Junior Exhibitor.

Residue Avoidance Policy

1. The California State Fair reserves the right to test any animal officially entered in any division at any time without notice, for any foreign substance including but not limited to drugs, chemicals or feed additives as well as DNA testing. At a minimum, some animals from the following groups will be tested: animals required to participate in the Sale of Champions (including any alternates) and; any animals suspect in terms of unusual physical appearance, demeanor or activity. As a condition precedent to accepting an entry, an entry form signed by the exhibitor, FFA (Agricultural Science) Instructor, 4-H Leader, Grange Advisor, Parent or Legal Guardian grants the California State Fair permission to test any entry.
2. Testing may be performed on any body tissue or fluid on both the live animal and the carcass.
3. Test samples collected from any animal must have zero tolerance for any identifiable or unidentifiable foreign substances including drugs (legal and illegal), chemicals of any kind or feed additives unless established

as permissible by the USDA or FDA or disclosed on the Medication Declaration Form.

4. If an animal has been administered a drug that is FDA approved for its species and class, sufficient time must have passed so that the animal does not test positive for that drug upon arrival at the California State Fair. Animals must remain free and clear of all drug and chemical residues while on show grounds unless being treated by the State Fair veterinarian or a licensed veterinarian while the State Fair veterinarian is present. Please note that elimination time (the time it takes for no drug residue to be found in the system) is generally longer than the labeled withdrawal time for most approved drugs.
5. The showing of any animal that has been administered during its life any quantity of any unapproved drug, chemical or medication is strictly prohibited. Such drugs include, but are not limited to, any diuretic, unapproved growth stimulant or other unapproved medication. Unapproved means not approved by the Food and Drug Administration (FDA) and/or the U.S. Department of Agriculture (USDA) for slaughter animals including animals that may be destined for human consumption.
6. If an animal that has declared a medication, receives an award and is eligible for the Sale of Champions, but is still within the withdrawal period of that medication then, the exhibitor shall be required to pay any boarding, transportation and administrative fees associated with the housing of livestock past the scheduled process date. Boarding fees associated with waiting for test results on animals with a known residue, are all the responsibility of the exhibitor and may require a deposit to be made before an auction. Fees are based on a per day cost per animal, transportation and administrative fees.
7. Animals testing positive to an unapproved foreign substance including but not limited to drugs, chemicals or feed additives, will be disqualified and declared ineligible to receive awards, premium money or sale proceeds. In addition to the disqualification and forfeiture of awards, premiums and/or auction proceeds, the State Fair may release to the media the name of the exhibitor, leader, advisor and the name of the exhibitor's animal that was disqualified and was in violation of the Drug Residue Program. The live market animal or carcass that tests positive will immediately become the property of the State Fair and the exhibitor may be compensated for the market value, less expenses if the animal passes inspection. The carcass of disqualified animal or poultry will be disposed of per instructions by CAHFS if disposed of before entering the food chain or by written instructions from U.S.D.A. or FDA if already in the

food chain.

8. If entry is disqualified, the entry and/or the exhibitor will be declared ineligible and will not receive awards, premiums and/or any sale proceeds, further the exhibitor will be responsible for payment of all fees (including attorneys' fees), fines, and costs incurred by Cal Expo as a result of the disqualification and any proceeding related to the disqualification. The owner/exhibitor and members of his/her immediate family may not be eligible to compete in subsequent California State Fair Programs. The extent and degree of future eligibility shall be determined by Fair management.
9. If foreign substance residues including drugs, chemicals or feed additives are found in the tissue of carcass of animals sold through the Sale of Champions, the California State Fair will in no way be liable or responsible for the condition of carcass or sale price of animals.
10. If for any reason, any part of a carcass must be removed by U.S.D.A. inspectors, sale price will be discounted accordingly.

Wholesome Assurance Statement

11. The use by non-veterinarians of animal drugs or other substances in any manner other than in accord with the labeling approved by the FDA is a violation of federal law.
12. Abuse of the extra-label privilege by veterinarians is unethical and is subject to serious consequences such as license revocation.
13. Any food animal must not exceed FDA/EPA/USDA established tolerances for any foreign substances including drugs, pesticides, feed additives or other chemicals.
14. Violative results of residue testing are subject to investigation by the USDA and FDA for prosecution.
15. Any misrepresentation of a food animal that can potentially affect the acceptability of the carcass or milk will be considered fraud.

Violations

16. If a Junior Exhibitor is found in violation of any of the Livestock Show rules, he/she and his/her family may be forever barred from showing at the California State Fair.
17. **Post Mortem Examination:** The California State may require a post-mortem examination of any animal which dies at the State Fair. This will be performed by a licensed veterinarian at the expense of the exhibitor.

Notice to Junior Livestock Exhibitors

18. **Residue Avoidance test fees:** any fees related to testing any animal or carcass as required by The California State Fair, U.S.D.A or F.D.A. or food processor will be deducted from sale proceeds of the junior exhibitor.

Policy for 2023

19. If animal tests positive on the original residue test screen, the exhibitor shall be responsible for paying for the confirmation test. If the exhibitor fails to pay or post fees for the confirmation test, the animal in question will be declared ineligible.
20. It is the policy and rule of the California State Fair that no animal which is entered for competition in the State Fair shall contain any trace residues of any substance which are not approved by the Food and Drug Administration (FDA) and/or the United States Department of Agriculture (USDA) for slaughter animals, unless disclosed on the Medication Declaration Form.
21. It is the sole responsibility of the Exhibitor to ensure that the animal is free of the prescribed drugs and substances listed on page 38. Extent of knowledge on the part of the Exhibitor with regards to the drugs or substance found in an animal is not relevant to any issue, and it shall not be the defense that person or persons unknown introduced the proscribed substance into the animal before, or at arrival, or after arrival on the State Fair property.
22. Personnel (employees and contractors) of the California State Fair, other approved departments (and their representatives) within the University of California at Davis, California Polytechnic State University, San Luis Obispo and Pomona, California State University at Fresno or Chico, Modesto Junior College, University of California at Davis Veterinary Medical Teaching Hospital, FDA, USDA, California Department of Food and Agriculture, California Department of Health or any other representative approved by the California State Fair reserve the right to take urine, blood, hair and other body tissue samples from any animal or its carcass at any time without notice, for the purpose of determining whether there is any residue of any substance found within the body of the tested animal. The exhibitor, by entering his/her animal, expressly agrees that he or she will cooperate with the person or persons charged with the responsibility of taking the sample from the animal at the time of arrival, weigh-in, during the show or any other time the animal is on the California State Fair's grounds. Failure to fully cooperate with testing procedures, and/or representatives collecting samples shall indicate a

voluntary withdrawal by the Exhibitor of the animal from the competition, and result in the immediate disqualification of this project and automatic loss of participation privileges in all future California State Fair competitive events.

23. All samples shall be taken by persons designated by the California State Fair and tested in an approved Laboratory. Reasonable care will be taken with regard to maintaining the purity and identity of the sample. The only chain of custody required will be that routinely relied upon by veterinarians practicing in and around the **Sacramento County Region**.
24. As samples are taken, the Junior Exhibitor, a parent or legal guardian and/or a leader/supervisor shall be present to view the procedure. Upon collection of a sample, the Junior Exhibitor, and a parent or legal guardian or leader/supervisor shall provide their signatures to acknowledge that the sample was collected from the Exhibitor's animal.
25. In the event that any animal is disqualified as a result of the violation of any of the rules found within the Residue Avoidance Program, or the animal is voluntarily withdrawn from the competition as a result of failure to cooperate with the testing procedures, then the Exhibitor shall immediately return awards and/or premiums previously presented. With regard to auction premium money, it shall be the option of the individual purchasing the disqualified animal to either donate the money to the Sale of Champions for the next year's use or donate the money to the California State Fair Scholarship Program, or upon request, receive a total refund of the auction premium money paid.
26. By making an entry in the California State Fair Livestock or Small Animal program, the Exhibitor, a parent or both parent(s)/legal guardian(s) and project leader/supervisor agree to abide by this Residue Avoidance Program.

ANIMAL HEALTH RULES

General Rules for All Species

1. Veterinarians and veterinarian assistants provided by the Fair shall check all livestock upon arrival, and before unloading for proper health certificates, signs of communicable disease, external parasites, unsightly disease conditions, and any wounds, open or closed, that may be contagious. Veterinarians and veterinarian assistants shall have the right to enter any pen or tie area to inspect an animal. Any animal found to be in an unsafe or unsightly condition will be quarantined in a designated area and then dismissed from Cal Expo facilities as soon as possible. The State Fair veterinarians' decision will be final. Specific health conditions that may warrant quarantine and/or dismissal are active ringworm, warts, sore mouth, infectious scours or dysentery, pinkeye, lice, mites, footrot, infectious pneumonia and abscesses which are balding showing hair separation, open, draining or still scabbed. Animals having surgical sites resulting from abscess removal are unacceptable if they have sutures (stitches), scabs or are draining. Animals that are lame or injured will also be dismissed at the direction of the State Fair veterinarian. Healed skin conditions may be sufficiently unsightly to warrant dismissal. (Lesions are considered active until skin is normal and hair regrowth is evidence.)
2. Each exhibitor will receive a Veterinarian health check form upon completion of the animal inspection. Each exhibitor will submit this form upon presentation of registration papers/official weight or animals will not be allowed to show.

DIVISION 6450: ANGUS

California State Fair Offers\$10,000 (Premiums)

There will be no American Angus Association Premiums in 2023.

Open Class Participation Statement American Angus Association

The American Angus Association®, 3201 Frederick Avenue, St. Joseph, Mo., will participate in premiums offered for open class Angus breeding cattle classes according to the premium schedule based on the number of head shown. The premium assistance provided by the American Angus Association for participation in this show is in addition to the premiums offered by the show itself. The premium assistance should not be used to offset show expense and shall be included in the premium payments distributed by the show to the exhibitors.

A minimum of 50 head must be shown in the open class division to receive American Angus Association premium participation for the following year.

Premiums from the Association are paid only to registered Angus cattle and only if the registration number is a part of the show report provided to the Association. Therefore, all cattle should be registered at the time of entry to make certain they receive the Association's portion of premiums. The Association does not pay on the championship or any group classes, (i.e., get-of-sire, junior get-of-sire or breeder six-head).

Exhibitors must have the original registration certificate issued by the American Angus Association available for inspection at the show for each animal or another current proof of ownership issued by the American Angus Association pedigree look up. Any animal, upon check-in, which does not have a legible permanent identification mark (ear tattoo marks, freeze-branded marks or hot-branded marks) corresponding to the permanent identification mark on the registration certificate, is ineligible to show. Once disqualified due to an incorrect or illegible permanent identification mark, animals cannot be reidentified (tattooed/branded) and rechecked at the show.

Any female shown with a calf at side: the calf must be the cow's most recent natural calf, and the calf must be registered by show day and have proof of registration at check-in.

Only one person at a time shall lead an animal into the show ring.

Exhibitors who participate in shows that accept premium monies contributed

by the American Angus Association are subject to the Association Rules as found in the Breeders Reference Guide of the Association. These rules are found in Part 2; Association Rules. The rules relating directly with the exhibition of Angus cattle are Part 2: Association Rules; Rule 800 Series; including Rule 800 - 810. These rules can be found at www.angus.org.

Altering the conformation and/or appearance of an animal for the exhibition is prohibited. This includes the use of chin straps, covering of white skin, false tail heads (or use of any false hair), with the exception of false tail switches. The use of graphite, powders, hemp or other similar substances used externally is also prohibited. Other prohibited products include those used internally such as steroids, illegal or unlicensed pharmaceuticals or artificial filling. Any animal found to be in violation will be barred from showing.

At any show for which the American Angus Association appropriates funds toward the payment of premiums, no exhibitors, individuals assisting exhibitors or member-owners at such show shall be allowed to use any coloring agents, on any animal exhibited. The Association may adopt and implement various tests designed to monitor this prohibition, including but not limited to a “white towel” or “white glove” test. No aerosol cans or other pressurized containers will be allowed in designated line-up areas.

All animals exhibited are subject to DNA marker or blood type test to verify the accuracy of parentage as covered under the Association Rules and for another testing as required by the individual show.

Authorized representatives of the Association have the authority to enforce the rules set forth herein as well as in the Association Rules, including the barring of a registered animal from a livestock show at which it is to be shown if there are reasonable grounds to believe a violation has occurred.

Any classes listed in this classification, which exceeds 15 head per class, should be broken into smaller classes. This should be accomplished by dividing the class as evenly as possible without splitting animals with the same birth date.

Example 1: If 16 heads are entered in class 4, the class should be broken into two classes of 8; a class of 7 and 9; or a class of 10 and 6. Example 2: If 32 heads are entered in class 4, the class should be divided into three classes consisting of two classes with 11 head and one class of 10 head or: similar without putting animals with the same birth date in different classes. Class breaks will be at the discretion of the American Angus Association staff in attendance.

Junior Livestock Exhibitors that officially enter and show in the Junior Livestock Show are eligible to compete in the Open Show as long as the same

exhibit/animal is entered and shown in the Junior Show and the same exhibit/animal is entered and met all Open Division entry deadlines and guidelines.

As there are a limited number of available pens, no guarantees of location and number of pens can be made. Pen and entry fees are due and payable by the entry close date.
38. Animals are to remain in the immediate barn area throughout the show and are prohibited from entering the midway and other non-livestock areas without being accompanied by a fair official.

DIVISION/CLASS CANCELLATION

7. The State Fair management reserves the right to return entries and cancel any division or class in which, in its judgment, the entries are insufficient to secure adequate competition.

JUNIORS ENTERING SENIOR DEPARTMENT

33. All divisions and classes within Junior Departments are intended for Juniors exclusively. Entry into the Junior Department is regulated by age and youth organization requirements as outlined in this competition guide. In no case may a person, group or organization outside of these age requirements (younger or older) be allowed to enter and compete in the Junior department.
34. However, Juniors may elect to enter, exhibit and compete (animal or non-animal) in the Senior Department when the rules of that department, division or class allow for such. Such entries shall be restricted to:
 - a. A class for the exhibit that is not provided in the Junior Department.
 - b. Junior Livestock Exhibitors that officially enter and show in the Junior Livestock Show are eligible to compete in the Open Show as long as the same exhibit/animal is entered and shown in the Junior Show and the same exhibit/animal is entered and meets all Open Division entry deadlines and guidelines.
 - c. Open classes or divisions that allow for the participation of Juniors due to the open competition being a specialty, feature, regional or national show sanctioned by the State Fair and/or recognized organization. In this case, the Junior exhibitor must also enter and compete (with the same exhibit) in the current year's Junior department, division, class offered for the exhibit. This provision must be printed specifically within the rules of the feature show within this guide.
35. Anyone under the age of 18 who meets the California State Fair age requirements and is planning to exhibit in a Senior department must have their parent or legal guardian sign their detailed receipt.
36. If the exhibitor is required to be on the fairgrounds, the Junior must be supervised by their parent or legal guardian while at the State Fair.
37. Exhibit animals owned in partnership between Seniors and Juniors shall not affect Junior's eligibility when the Senior partner is the exhibitor.

STATE FAIR EMPLOYEE PARTICIPATION

38. No employee of the State Fair will be permitted to enter an exhibit for competition. No person shall be an exhibitor or sign an entry form as an agent in any Division or Department in which the exhibitor is a department head, judge, or paid employee.

Disqualification

ENTRY DISQUALIFICATIONS/TRANSFERS

39. A complete exhibit eligible in more than one Division and/or Class shall be entered and judged only in the Division and/or Class for which it best qualifies.
40. The State Fair or the judge may disqualify or transfer to the correct Class (at his/her discretion) any exhibit which is not a true representative of the Division or Class in which it is entered.

It is not, however, the responsibility of the State Fair or judges to transfer an entry to the correct Division and/or Class.

DISQUALIFICATIONS

41. The State Fair management shall reserve the right to vacate, declare ineligible for competition, and/or order the removal of any entry which is not in the best interest of the State Fair, is unsightly, unhealthy, injured, lame, unsound, endangers public safety, violates the State Fair's Animal Welfare Policies, or has been entered in violation of these rules and regulations.
42. In the event, an entry or an exhibitor is disqualified for any rule or policy violation (including but not limited to practices or procedures that are unethical, those in violation of the State Fair's Residue Avoidance Program, DNA Testing Program and those not adhering to the State Fair's schedule for the program), any or all of the following actions may take place:
 - a. The entry or exhibitor that is disqualified will be declared ineligible and will not receive awards, premium money and/or any sale proceeds. Further, the exhibitor shall be responsible for payment of any fees, fines due or costs incurred by the State as a result of disqualification.
 - b. The owner/exhibitor and members of his/her immediate family will not be eligible to compete in subsequent California State Fair Programs. The extent and degree of future eligibility shall be determined by State Fair Management.

- c. State Fair Management reserves the right (but does not guarantee) to move entries up in placing after judging has taken place when an award void is created by a disqualification.
- This process of moving up judged entries shall only take place, however, when it is clear what the judge's placing would have been had the disqualified entry not been in competition.
 - For example, when a Champion is disqualified, the Reserve shall move up and be named the Champion; however, no other changes shall take place below the Reserve Champion. The same shall apply in the case of a class, section or division winner when a 2nd place has been clearly indicated by the judge.
 - If it is not possible to clearly determine a new placing, no change shall take place.
 - When a placing change does take place the entry moving up will receive all the awards, appropriate titles and all premiums of the disqualified entry but will not receive any of the original placing awards or premiums won in the second category. In other words, 2nd place will now receive 1st money and "no" entry will receive 2nd money.

COOPERATION

43. Exhibitors, their immediate family, leaders, advisors and agents thereof, not cooperating with security personnel or any other State Fair officials in all matters of policy, including but not limited to parking, stall/pen/space assignments and appearance, judging and/or animal care will have their entries cancelled and will be ordered to remove their exhibit from the grounds immediately and forfeit all awards, premium monies, and sale proceeds. Failure to adhere to this rule will result in being banned from the State Fair.

PUBLIC DISTURBANCES

44. Exhibitors causing public disturbances, those who are uncooperative and/or unsportsmanlike, those not following good animal welfare practices as determined by management, or those found in violation of rules or in practices unethical or inimical with the State Fair program and/or policies/procedures shall be penalized by forfeiture of premiums awarded, any and all awards, payments of fines and/or damages to State Property, privileges, and/or disqualification at this or subsequent State Fairs as may be deemed appropriate by the State Fair Management and/or the Board of Directors.

Further, if the exhibitor and/or exhibitor's adult supervisor, parent or family member's actions are deemed to be illegal, inhumane or unethical to livestock; the proper authorities will be notified for further investigation by those agencies for possible prosecution and/or civil penalties.

PROBATION

45. Any exhibitor found in violation of any rule may be placed on probation for one year or longer if State Fair management deems appropriate.

Judging

JUDGING

46. The judge(s) shall award first, second or third place, etc., according to merit and if without merit the judge shall make no award under any circumstances. This rule applies whether there are one or more entries in the class.

JUDGE/EXHIBITOR INFORMATION

47. No person shall act as a judge in any Division in which he/she or a member of his/her immediate family is an exhibitor, is in charge of an exhibit or division, in charge of a group of exhibitors, or is a member of a group of exhibitors.

JUDGE/FRATERNIZATION/CRITICISM

48. Judges should avoid unnecessary fraternization with exhibitors. No person shall be allowed, under any circumstances, to interfere with the judge, or judges, during their adjudications, or with the State Fair's staff, or to offer any criticism of any exhibit of another.

Violators of this rule shall be excluded immediately from the judging area and competition and be subject to such additional penalties, including cancellations of awards, as the State Fair management shall consider appropriate.

49. No exhibitor shall receive more than two cash awards in any one class. For this rule only, a husband, wife, and unmarried children (including foster children) under 18 years of age shall be considered as being one exhibitor, except that brothers and/or sisters shall be considered as being separate exhibitors in Junior Department classes.

This rule shall have no bearing on consideration in the placing of entries by judges. Ribbons shall be presented in the order of placing by the

judges.

The management shall, however, pay third money to the fourth winner, etc., when the third winner is prohibited from receiving third cash award under the provisions of this rule. (Any entry or exhibit in which one or more members of the family described above has a financial interest shall be included in the limitation of not more than two cash awards per class.)

50. Management reserves the right to combine or to divide classes in a manner it deems necessary in order to assure adequate competition.

In the event of a show change, as a result of this rule, or where classes are established after the close of entries, premiums and awards will be distributed, divided or eliminated in a manner as deemed necessary by State Fair Management.

JUDGE'S DECISION

51. The judge's decision is final.
52. The judge's decision cannot be protested.

CHIEF JUDGE POLICY

53. A Chief Judge will be assigned by the State Fair, for still exhibits only, to mediate in the event there is a conflict during the judging process. All decisions of the Chief Judge shall be final and may not be protested.

PROTESTS

54. **For still exhibits and horse only** - Any protest must be submitted in writing and given to the State Fair's staff member responsible for the Competitive Program in question within 24 hours of the time of the cause of the protest.

Protests must be based on a violation of rules, and you must reference the rule in your protest. The judge's decisions on awards cannot be protested.

No protest shall be considered by the management unless accompanied by a deposit of \$300.00 (Cash, money order or certified check).

The deposit shall be forfeited if the protest is not upheld.

Protests shall be adjudicated by State Fair management.

State Fair management will consult with a member of the California State Fair Board of Directors who shall be designated by the Chairman of the Board.

The decision of State Fair Management shall be final and unappealable.
See special livestock rules for protests in the Livestock Program.

55. Under no circumstances will any entry which has been previously judged be “rejudged” due to the disqualification or removal or another entry.

Awards

SPECIAL AWARDS

56. Special Awards contributed by businesses or individuals are offered in some California State Fair Competitive Programs. These Special Awards are the obligation of the contributor/donor. The California State Fair is not responsible for redemption of these awards.

TAX LAWS

57. It is the responsibility of the exhibitor to investigate and adhere to State and Federal tax laws/regulations regarding premiums paid, and awards received.

As an out-of-state payee who earns \$1500 or more, Cal Expo must withhold 7.5% for State taxes.

You may request an exemption or a reduction of this withholding by filling out and submitting the Nonresident Withholding Waiver Request, California Form 588.

PREMIUM AWARDS

58. Awards, ribbons, tags or cards have no value as payment. Premiums are paid only from the records of the judges' sheets.
59. Premium checks will be issued as soon as auditing, drug testing, if applicable, and processing can be completed. If checks are not received by November 15, please phone or write the State Fair.
60. Checks must be **cashed within six months** of the date of issue.

ELIGIBILITY QUESTIONS

73. Any questions as to the eligibility of an entry shall be determined

by the exhibitor's advisor (for 4-H, FFA or Grange), instructor (for Student Showcase) or parent or guardian (for Independent Juniors). Notwithstanding the foregoing, the State Fair shall make the final determination of eligibility in all cases.

4-H AGE REQUIREMENTS

74. The levels of membership for 4-H are aged based. Each level is defined as follows:
